

# BUILDING ECONOMIC PROSPERITY

## Our strategy towards 2030

### Purpose

Our purposes are outlined in section 146 of our enabling legislation, the *Aboriginal and Torres Strait Islander Act 2005 (Cth)*:

- To assist and enhance Aboriginal and Torres Strait Islander self-management and economic self-sufficiency.
- To advance the commercial and economic interests of Aboriginal persons and Torres Strait Islanders by accumulating and using a substantial capital asset for the benefit of the Aboriginal and Torres Strait Islander peoples.

### Strategic goal

Over the **next five years** we will invest

## \$5 to \$7 billion

to advance the commercial and economic interests of Aboriginal and Torres Strait Islander peoples and Nations.

### RAISING CAPITAL

#### Indigenous economic participation

Engage capability and investment partners as we raise capital

Expand the sources and value of capital raised by IBA

Create avenues to seek out investment opportunities with partners and Indigenous First Nations

### DEPLOYING CAPITAL

#### Indigenous prosperity through investment, home ownership, and enterprise growth

Offer services, products, resources, and opportunities to advance First Nations self-management and economic self-sufficiency

Boost First Nations peoples' home ownership through a greater range of products and services

Assist more First Nations entrepreneurs, business owners, and businesses to launch, grow and scale

### PATIENT CAPITAL

#### Substantial Indigenous capital asset base

Build the First Nations' capital base through greater participation in economic development happening on-Country

Deploy greater resources to First Nations that lifts commercial outcomes from economic activities on their Country

Facilitate Indigenous interests, stakeholders, and businesses to participate in growth sectors of the economy

### SHAPING CAPITAL

#### Insights into the Indigenous-led economy

Contribute to Indigenous economic development and policy by publishing market intelligence, research, and analysis

Promote research and knowledge creation that lifts First Nations economic self-sufficiency and efficient investment decisions and transactions

Increase understanding of the trends and drivers of First Nations self-management and economic self-sufficiency

+ New initiative
